## Web Designer and Front-End Developer

### PROFILE

**Web Designer (Self-taught Photoshop Ninja):** Too enthusiastic about great design to leave it alone, was promoted in 2007 to full-time design position. Works intimately with information architecture to produce **user-centered, beautiful** web site designs that meet clients' goals. Slices designs into xHTML and CSS, implements content, and often integrates with third-party programs like Movable Type, Wordpress, and others.

**Front-End Developer (CSS Wizard):** A web standards advocate, uses xHTML, CSS, and Javascript to create accessible, flexible, and bullet-proof web sites. Creates code that is valid, semantically meaningful, and (when possible) beautiful. Described in first annual review as "tech lead for his position."

### TECHNOLOGIES

**Master:** Photoshop, Dreamweaver, InDesign, xHTML, CSS, XML Feeds (RSS), jQuery, Movable Type, Wordpress, Lyrus List Manager, Feedburner, Google Analytics

**Journeyman:** Javascript, Ruby on Rails, Coldfusion, PHP, Illustrator

### EXPERIENCE

*Web Designer, Matrix Group International, Inc, Alexandria, VA 2007-2008*

Created outstanding web designs for clients. Worked in combination with wireframes, personas, and user goals to produce designs that met business goals and worked effectively as part of clients' brands. Presented designs in client meetings. Worked with front-end developers in slicing and implementing designs afterward. Interacted directly with clients in coordinating projects. Worked as part of a team, frequently collaborating with front-end developers and developers in supporting clients.

*Front-End Developer, Matrix Group International, Inc, Alexandria, VA 2005-2007*

Earned rave reviews from clients as their primary support staff. ("Nate, you are a god-send.") Performed troubleshooting and content updating for client sites. Sliced new designs into elegant, standards-compliant, validating xHTML and CSS. Performed content audits, large-scale implementations, and provided staff training for numerous clients. Managed mailing lists for clients through Lyrus List Manager.

*Agroforestry Volunteer, United States Peace Corps, Poli, Cameroon 2004-2005*

Worked in a small village in Central Africa to promote sustainable agriculture through use of trees in combination with food crops. Learned and used French to deliver presentations to village leaders and farmers and to work one-on-one with farmers on nursery projects. Taught English in the village high school.

### EDUCATION

St. John's College, Annapolis, MD  
Bachelor of Arts
